— WHO WE ARE

An integrated player in mining, construction and equipment in Guinea

SOGECOPRES SARL is a Guinean company specialised in mining and ore haulage, construction and civil works, and equipment supply. Since its creation it has become a reference for quality, innovation and sustainability.

We deliver services that meet international standards while complying with the strictest safety, environmental and social responsibility requirements. Every project is carried out together with our clients, our partners and the communities that host us.

Our six business lines: mining (bauxite, gold, haulage and logistics), construction and civil works, equipment supply, project management consulting, community development and, since 2024, solar photovoltaic energy.

— WHAT GUIDES US

Vision, mission and values

OUR VISION

To be a key player in sustainable development in Guinea, innovating constantly and delivering superior-quality services in the mining and construction sectors.

OUR MISSION

To deliver high-quality services in mining, logistics and construction, in strict compliance with safety standards, while developing our people and supporting the socio-economic development of communities.

OUR STORY

Since its creation, SOGECOPRES has adapted to the challenges of the market. Its journey is marked by major achievements and strategic partnerships that have strengthened its leadership in its sectors.

“

Let us move forward in this endeavour, strengthened by the conviction that those who serve a great and noble cause will never fail.

— OUR VALUES

01

Innovation

Modern methods and technologies in mining, construction and equipment.

02

Quality

Products and services that meet international standards, at every step.

03

Commitment

Sustainable practices to limit our footprint and support local development.

04

Reliability

A solid reputation and recognised experience on the Guinean market.

What sets us apart

Tailored approach

Every aspect of the project meets the specific expectations and requirements of our clients.

Multi-sector expertise

Mining, construction and equipment: integrated solutions for complex and varied projects.

First-rate partners

A reputation for reliability built with leading institutions and industrial players, in Guinea and abroad.

— OUR SERVICES

Six business lines, one standard of excellence

From bauxite and gold extraction to infrastructure construction, equipment supply, consulting and solar energy, SOGECOPRES delivers integrated, sustainable solutions.

01

Mining

Exploration and extraction of mineral resources, mainly bauxite and gold, using modern methods that maximise recovery while reducing environmental impact. We also handle ore haulage and logistics, from extraction to delivery.

- Bauxite and gold extraction
- Ore haulage and mining logistics
- Responsible management and site safety

02

Construction & civil works

Roads, bridges, basins, dykes, administrative buildings and industrial facilities: civil engineering and construction carried out with particular attention to quality, safety and deadlines.

- Infrastructure and engineering structures
- Public and private buildings
- Construction and fit-out of facilities

03

Equipment supply

Mining equipment, construction machinery, personal protective equipment, energy solutions and agricultural machinery, with after-sales service, spare parts and technical assistance.

- Drill rigs, crushers, construction machinery
- Generators and solar panels
- PPE, surveillance and safety

04

Consulting & project management

Strategic planning, project management, engineering consulting, risk analysis, monitoring and evaluation: multi-sector expertise to secure your investments.

- Project planning and steering
- Engineering consulting
- Risk analysis and management

05

Community development

Schools, health centres, water points, vocational training and local job creation: we invest in the communities that host our projects, in partnership with authorities and NGOs.

- Education and health
- Local jobs and training
- Community infrastructure

06

NEW · 2024

Solar photovoltaic energy

Since 2024, our solar department designs, installs and maintains photovoltaic systems of every type and size — homes, apartments, businesses and ground-mounted plants — with the largest EPC contractors in China and Europe.

- Studies and system sizing
- Turnkey installation
- Maintenance and yield monitoring

NEW · 2024

SOGECOPRES Energy — Photovoltaic department (since 2024)

Power from the sun, from homes to solar parks.

We design, install and maintain photovoltaic systems of every type and size, for households and businesses alike, with the largest EPC contractors in China and Europe.

WHAT WE DO

01 Studies

Site visit, consumption and irradiation analysis, sizing of panels, inverters and batteries, return-on-investment study.

02 Installation

Equipment supply, roof or ground mounting, electrical connection, commissioning and user training.

03 Maintenance

Panel cleaning, electrical checks, yield monitoring and fast response to keep performance high over time.

Family house

Apartment building

Industrial roof

HOUSEHOLDS

Houses and apartments

- Solar kits with battery storage
- Villa and apartment-building roofs
- Backup power during grid outages

BUSINESSES

Companies, industry and ground-mounted plants

- Commercial and industrial roofs
- Large ground-mounted plants
- Hybrid solar + generator systems

EVERY TYPE, EVERY SIZE A solution for every need

EPC PARTNERS

In partnership with the largest photovoltaic EPC contractors in China and Europe

Our EPC partners (engineering, procurement, construction) rank among the largest players in the global photovoltaic industry. They bring proven equipment and top-level engineering; in Guinea, SOGECOPRES manages the project, installation, connection and maintenance.

China

Direct access to the manufacturing capacity and engineering of the largest PV players.

Europe

Methods, standards and quality requirements of major European EPC contractors.

Guinea

— OUR APPROACH

Quality, safety, deadlines: the SOGECOPRES method

Every project is unique. We work closely with our clients to understand their needs and deliver tailor-made solutions, from initial assessment to delivery and follow-up.

01

Quality

The highest standards on every project, for durable and functional results.

02

Safety

Rigorous measures to protect our teams and secure our sites.

03

On-time delivery

Schedules kept, with no compromise on quality.

04

Sustainability

Environmentally friendly materials, energy efficiency and responsible waste management.

— SUSTAINABILITY & COMMUNITIES

Operating cleanly, investing locally

We integrate sustainable practices into all our activities to minimise our environmental impact, and we contribute to the socio-economic development of the communities that host our projects.

- Green technologies, resource optimisation and reduction of waste and emissions on our sites.
- Local jobs and vocational training programmes for young people and adults.
- Construction of schools and health centres, water points and local infrastructure in rural areas.
- Partnerships with local authorities, NGOs and economic players in the regions where we operate.

SAFETY ON OUR SITES

We apply international safety standards on all our construction and mine sites, with strict protocols and regular staff training.

— FLAGSHIP PROJECTS

Projects that matter for Guinea

From public infrastructure built with the European Union to the operation of a bauxite deposit, our projects reflect our role in the economic and social growth of the country.

CIVIL WORKS · EUROPEAN UNION

Kindia Court of First Instance

Construction of the Kindia court in partnership with the European Union: essential infrastructure for the justice system in Guinea.

CONSTRUCTION & FIT-OUT

National Centre for Environment and Road Safety (CNESA)

Construction and fit-out of a centre dedicated to road safety and the environment, with the European Union.

RESIDENTIAL

Private building in Kipé

A high-quality residential project in Kipé, designed for comfort and modernity to the most rigorous construction standards.

MINING

Bauxite deposit

Operation of a major bauxite deposit in Guinea with local and international partners: hundreds of jobs created and a major contribution to the local economy.

— IN THE FIELD

— OUR PARTNERS

Technical & financial partners

**INSTITUTIONAL DONOR****European Union**

Construction of the Kindia Court of First Instance and the CNESA, funded by the European Union.

**MINING PARTNER****SMD**

Mining and haulage services for the Société Minière de Dinguiraye.

**MINING PARTNER****SAG — AngloGold Ashanti**

Works and supplies for Société AngloGold Ashanti de Guinée in Siguiri.

**INSTITUTIONAL DONOR****USAID**

Community infrastructure and development projects supported by the US agency.

**FINANCIAL PARTNER****Banque Islamique de Guinée**

Banking support for our operations, together with Orabank and First Bank.

**PUBLIC INSTITUTION****Ministry of Infrastructure and Public Works**

Public contracts for roads, structures and administrative buildings, together with the METFPE.

— THEY TRUST US

Technical partners, suppliers and institutions in Guinea, Sierra Leone, France and Germany.

"Their equipment supply service is exceptional. SOGECOPRES provided us with tailor-made solutions that boosted our productivity."

Amadou Baldé

Purchasing Manager — Guinée Équipements

"Thanks to SOGECOPRES, our mining project was carried out with impressive efficiency and expertise. Their commitment to sustainability is exemplary."

Mamadi Kaba

Mining Project Director — Bissala Gold

"SOGECOPRES transformed our community with high-quality infrastructure. Their innovative and safe approach exceeded our expectations."

Fatoumata Dabo

Community leader — Kamsar municipality

— OUR ORGANISATION

The management team

Visionary, experienced leaders dedicated to guiding the company towards excellence.

MANAGING DIRECTOR

Mr Amara Nabé

He drives the strategy of SOGECOPRES, institutional and mining partnerships, and the development of the company in Guinea and abroad.

DEPUTY MANAGING DIRECTOR

Mrs Kadiatou Doumbouya

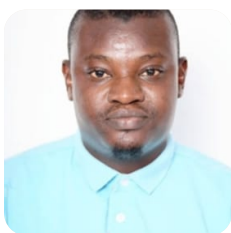

She oversees company management, administration, contracts and coordination between the head office, construction sites and mine sites.

MINING PROJECT DIRECTOR

Mr Mohamed Bangoura

He leads mining and ore haulage operations, site safety and relations with mining partners.

**HUMAN RESOURCES
MANAGER**

Mr Mamadou Lamine Bah

**INTERIM OPERATIONS
MANAGER**

Mr Famagan Magassouba
